

INFORMATION SHEET

MOVE TO KWILL PUBLISHING HOUSE

WELCOME TO KWILL!

Kwill books are published using a traditional method of preparation including editing, design, and marketing. The difference in the Kwill model is that we accept books for submission without gatekeeping, and do not pay an upfront advance to the author, nor do we take royalties from sales. Instead, we make your book the best it can by offering packaged or custom services to the author to guarantee Amazon sales, reviews, and ranking.

MOVE TO KWILL FROM \$59

If you are already published with a small press or publishing house and you want 100% control over your book's rights and sales, Kwill is for you. We do not demand any rights to your work and you remain 100% in possession of copyright and royalties. This deal is exclusive to already published authors.

Bowker ISBN

Your new ISBN worth \$125 will be registered with Kwill Books at Bowker's ISBN agency. Kwill Publishing House publishes US and UK English books using KDP and Createspace technologies at Amazon.com. We are registered as a publishing house and therefore when you are with Kwill you have "published" status rather than having an ISBN you acquire through a service like Ingram, Createspace, or BookBaby. These services are formatting and distribution services, and not publishers in the traditional sense and you will still be self-published status. With Kwill you are registered at Bowker as one of our published authors and will be treated as such by libraries and book buyers looking for new talent.

Categories on BISAC and Amazon

We will assess your categories and give you 3-5 categories in the BISAC registry, and a further 2 on Amazon.com. These categories will give you a high chance of ranking on Amazon.

Step-By-Step Guide To Set Up Your Book Page

You will be in control of your new Amazon Book Page. We will coach you through setting up your new edition and merging your existing Amazon Reviews so you don't lose them in the move to Kwill.

Keywords Assessment for Amazon

We will give you 5-7 keywords or phrases that will help readers discover you on Amazon

New Barcode and Back of your Book/Spine Redesign

Your cover for your print book will need a redesign to remove and replace the current publisher's barcode and pricing. You are free to choose a new print price for your book too.

We will need the cover at 300dpi in PDF or Photoshop format to provide this free redesign, or you can take advantage of our in-house book designers and get a new custom cover for a reasonable price, including your licenses for stock imagery and fonts.

Author Page on Kwill

We will give you an author page on Kwill with an Amazon Buy button, a 3D book image, an author photo and bio, and a book trailer if you have one. If you don't, we can provide one at a reasonable price for you to use to promote your book.

EXCLUSIVE ADD-ONS

Once you have purchased your Kwill ISBN, you can purchase the following:

- Author Website - Designed and Hosted for 1 year on Wordpress with custom URL - \$149
- Book Cover Redesign eBook only, including stock licenses - \$299
